[DE001-1000; FRL-6988-2]

Approval of Section 112(l) Authority for Hazardous Air Pollutants; Chemical Accident Prevention Provisions and Risk Management Plans; Delaware; Approval of Accidental Release Prevention Program**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing to approve the Delaware Department of Natural Resources and Environmental Control's (DNREC's) request to implement and enforce its accidental release prevention program in place of similar Federal requirements. In the Final Rules section of this **Federal Register**, EPA is approving the State's request for rule approval as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before July 9, 2001.
